REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Wall Street Strategies, Inc.

We have audited the accompanying financial statements of Wall Street Strategies, Inc. (the "Company"), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, changes in stockholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Wall Street Strategies, Inc. as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The supplementary information contained in Schedules I and II has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Wall Street Strategies, Inc.

Notes to Financial Statements

December 31, 2014

1. Organization

Wall Street Strategies, Inc. ("the Company") is a registered broker dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company is incorporated under the laws of the state of Ohio. The Company specializes in agency transactions and investment advisory services and like other broker dealers, is directly affected by general economic and market conditions, including fluctuations in volume and price level of securities, changes in interest rates and securities brokerage services, all of which have an impact on the Company's liquidity.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Company:

Revenue – Securities transactions (and related commission revenue and expense, if applicable) are recorded on a settlement date basis, generally the third business day following the transaction date. This is not materially different from trade date.

Cash and cash equivalents – The Company considers financial instruments with a maturity of less than 90 days to be cash equivalents.

At times during the year, the Company's cash accounts may exceed the related amount of federal depository insurance. The Company has not experienced any loss in such accounts and believes it is not exposed to any significant credit risk.

Receivables and Credit Policies - Commissions receivable are uncollateralized clearing broker obligations due under normal trade terms requiring payments with 30 days.

Commissions receivable, net of trading, are stated at the amount billed. Payments of commissions receivable are allocated to the specific transactions identified on the clearing broker statement or, if unspecified, are applied to the earliest unpaid amounts.

Management individually reviews all receivable balances that exceed 30 days from the invoice date. Any amounts deemed not collectible are written off. Management estimates an allowance for the remaining commissions receivable based on historical collectability. In the opinion of management at December 31, 2014, all receivables were considered collectible and no allowance was necessary.

Income taxes – Income taxes are provided for in accordance with FASB ASC 740, Income Taxes, whereby deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the settlement date. The Company records a valuation allowance when it concludes that it is more likely than not that the deferred tax assets will not be realized.

2. Summary of Significant Accounting Policies (Continued)

Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions.

Fair Value of Assets Measuring on a Recurring Basis - FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

Fixed income securities are valued at purchase price plus accrued interest. There is not an active market on which the individual securities are traded.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table sets forth a summary of the changes in the fair value of the Company's level 3 investments for the year ended December 31, 2014:

| | <u>Investments</u> |
|------------------------|--------------------|
| Balance beginning year | \$ 14,127 |
| Sales | (14,127) |
| Balance end of year | \$ - |

Wall Street Strategies, Inc.
Notes to Financial Statements (Continued)
December 31, 2014

2. Summary of Significant Accounting Policies (Continued)

The valuation technique utilized for fair valuation of the investment was similar sales.

Subsequent events - Management has evaluated the impact of all subsequent events through February 24, 2015, the date the financial statements were available to be issued and has determined that there were no subsequent events requiring disclosure in these financial statements.

3. Related Party Transactions

The Company is a party to an annual expense sharing agreement with an affiliate, whereby the affiliate will assume costs related to the use of facilities and copying services for the benefit of the Company. Management believes that these amounts are not material to the financial statements.

4. Federal Income Taxes

The Company has elected to file a consolidated income tax return with an affiliated entity. In addition, these parties have a tax sharing agreement. The aggregate amount of current and deferred income tax expense for the year ended December 31, 2014 was as follows:

| | |
|--------------------------|-------------|
| Current federal tax | \$ - |
| Current state tax | - |
| Deferred tax | - |
| Total income tax expense | <u>\$ -</u> |

There are no tax-related balances due to or from the affiliate as of December 31, 2014 current and deferred tax expense for the Company is determined based upon provisions of the tax sharing agreement.

The Company recognizes and discloses uncertain tax positions in accordance with GAAP. As of, and during the year ended December 31, 2014, the Company did not have a liability for unrecognized tax benefits. The Company is no longer subject to examination by federal and state taxing authorities prior to 2010.

5. Computation for Determination of Reserve Requirements

The Company will operate in accordance with the exemptive provisions of (k)(2)(i) of SEC Rule 15c3-3. The Company does not carry security accounts for customers.

6. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2014 the Company had net capital of \$11,523 which was \$6,523 in excess of its required net capital of \$5,000. The Company's net capital ratio was 1.62 to 1.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Wall Street Strategies, Inc.

We have reviewed management's statement, included in the accompanying Exemption Report in which Wall Street Strategies, Inc. (the "Company") identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3:(1) (the "exemption provisions") and the Company stated that the Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

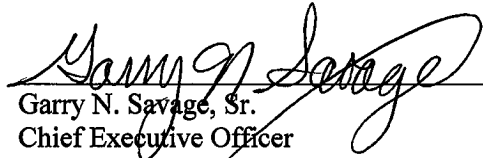

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(i) of Rule 15c3-3 under the Securities Exchange Act of 1934.

Abington, Pennsylvania
February 24, 2015

Exemption report:

In accordance with the Company's membership agreement with FINRA the Company is designated to operate under the exemptive provisions of paragraph (k)(2)(i). The Company does not handle cash or securities on behalf of customers. Therefore, the Company, to its best knowledge and belief, is in compliance with Rule 15c3-3 and has been so throughout the year ended December 31, 2014.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM AGREED-UPON PROCEDURES REPORT ON SCHEDULE OF ASSESSMENTS AND PAYMENTS (SIPC-7)

To the Board of Directors of
Wall Street Strategies, Inc.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments to the Securities Investor Protection Corporation (SIPC) for the period from January 1, 2014 to December 31, 2014 which were agreed to by Wall Street Strategies, Inc. ("the Company") and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and SIPC, solely to assist you and the other specified parties in evaluating the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement journal entries noting no differences.
2. Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2014, as applicable, with the amounts reported in Form SIPC-7 for the period from January 1, 2014 to December 31, 2014 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers prepared by management noting no differences;
4. Proved the arithmetical accuracy of the calculations reflected Form SIPC-7 and in the related schedules and working papers prepared by management supporting the adjustments noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
